

R E M A R K S

Claims 1, 2 and 11 are pending and at issue.

Claim 1 has been amended to overcome the rejections based on GB Pat. '010 to Wood; Nunn et al US 2,758,769; Hengstenberg et al '671; Everroad US 4,079,933; and Schoenbrun US 2,568,304. More specifically, claim 1 has been amended to characterize the drag harness as comprising two arm loops and a drag grip all of which are defined by a single continuous length of strapping fixed directly to itself solely at a common juncture. This structure is neither shown nor suggested by the cited references taken alone or together. Accordingly, it is believed that all of the rejections should be withdrawn and the claims allowed.

In view of the foregoing, reconsideration of the rejections and allowance of the case are respectfully requested.

Respectfully submitted,

WOOD, PHILLIPS, KATZ,
CLARK & MORTIMER
